## Machine

The Innov-is 2500D is great for sewing, quilting, and embroidering. It has 158 Disney embroidery designs built-in. The Innov-is 2500D offers a color LCD touch screen, a 10 inch x 6 inch embroidery area and precise stitching for all of your projects.

The built-in dual USB ports allow a direct connection from your machine to your computer. You can also access a variety of additional memory devices (not included).

The powerful on-screen editing features include layout, pattern rotation in 1 degree increments, mirror imaging and scaling. The oversized, high-resolution color LCD screen makes machine control easy. Select stitches, embroidery patterns, tutorials and more by simply touching the screen.

## Special Features

- 158 built-in Disney embroidery patterns with 82 additional built-in patterns
- 149 built-in decorative stitches
- Up to 800 stitches per minute embroidery
- Up to 1,000 stitches per minute sewing
- 10 built-in monogramming fonts
- Thread cutter button
- Super bright work lights
- Automatic presser foot lifter
- Upper and lower bobbin thread sensing system
- Quick-set horizontal bobbin
- Automatic Upper Thread Tension System for perfect stitches on any fabric
- On-screen editing
- Advanced on-screen help menu
- Built-in Embroidery Design Card Slot and USB ports

## Detailed Features

### LARGE COLOR LCD DISPLAY

Bright, vivid 4.6 inch x 3.5 inch backlit control panel allows access to all functions simply by touching the display.

### GENEROUS 10-INCH X 6-INCH EMBROIDERY AREA

Large 10-inch x 6-inch embroidery area gives you plenty of room for your creativity.

### 7-POINT FEED DOGS

Now you can feed any fabric smoothly and with ease with the 7-Point Feed Dogs.

### ADVANCED NEEDLE THREADING SYSTEM

Just press a lever and the thread is pushed through the eye of the needle for perfect threading.

### PRESSER FOOT HEIGHT ADJUSTMENT

Presser foot height selector lets you select the presser foot height from three different levels.

### CREATE STITCHES OF YOUR VERY OWN

Create your own stitches using the My Custom Stitch feature on the LCD Panel.

### RESUME FUNCTION

When the machine is turned off in the middle of an embroidery design, use the resume function to go back to the exact last stitch last design after the machine is turned back on.
